Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION

No. 419L.C.—20th January, 1936. — In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 12th December, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL TENANCY (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Bengal Tenancy Act, 1885.

WHEREAS it is expedient further to amend the Bengal Tenancy Act, 1885, in the manner hereinafter appearing; VIII of 1885.

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (3) of section 80A of the Government of India Act to the passing of this Act; 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V. c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Tenancy (Amendment) Act, 1935.

Application of Act.

2. The Bengal Tenancy Act, 1885 (hereinafter referred to as the said Act), shall in its application to Bengal, be amended in the manner hereinafter provided;

Amendment of section 26F.

3. (*1*) In section 26F, clause (*3*), the following "or has spent in improvements upon his holding" shall be inserted after the words "or in annulling encumbrances on the property."

(*2*) In section 26F, clause (*3*), after the words "has paid," the words "or has spent" shall be inserted.

Amendment of section 26J.

4. (*1*) In section 26J, at the end of clause (*1*), the following shall be inserted, namely:—

"On an application filed by a sole or co-sharer landlord within two months of the service of notice issued under section 26C or 26E:

Provided that if the application has been made by a co-sharer landlord, the remaining co-sharer landlords shall be made parties in such application and notice of the application shall be served on them and they, if they like, can apply to join in the application of the applicant, in which case the entire landlord's fees shall be ordered to be paid by the Court."

(*2*) In section 26J, after clause (*1*), the following clause shall be inserted, namely:—

"(*1a*) After such an application has been filed, no co-sharer landlord who has been made a party therein and duly served with notice issued under clause (*1*), shall be entitled to recover, save as co-applicant in that application, his share of the landlord's fee in respect of the sale in question of the holding."

(*3*) In section 26J, for clause (*2*), the following shall be substituted, namely:—

"(*2*) If such payment is not made, the Court shall decide whether the holding or tenure in question is permanent or held at a rent or rate of rent fixed in perpetuity or held as rent free and after deducting any amount paid as the landlord's fee under section 12, 13, 17, 18 or 26H shall order the payment of the balance of the landlord's transfer fee. Such decision shall have the force and effect of a decree."

(*4*) In section 26J, clause (*3*), the words "and the compensation allowed" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

Case-law and experience have rendered necessary this change in the law. A poor purchaser shall not be obliged to sue separately for value of improvement, if any, made by him as decided by cases but all matters between the transferee and the landlord shall be decided in one proceeding. Similarly, it has been pointed out that on account of an omission, no limitation has been provided for an application under section 26J, which therefore is now governed by three years' limitation. This is hard for a purchaser—to be harassed at the end of three years of his purchase by an application. Also very important questions, such as status of the tenant, are decided in such cases, and by way of analogy to section 105A, Bengal Tenancy Act, such decisions ought at least to have the force and effect of a decree.

The Bill gives effect to such matters.

THE BENGAL MEDICAL (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Bengal Medical Act VI of 1914.

WHEREAS it is expedient further to amend the Bengal Medical Act VI of 1914, for the purpose hereinafter appearing;

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (3) of section 80A of the Government of India Act to the passing of this Act;

5 and 6 Geo. V, C. 61; 6 and 7 Geo. V, C. 37; 9 and 10 Geo V, C. 101.

It is hereby enacted as follows :—

Short title.

1. (*i*) This Act may be called the Bengal Medical (Amendment) Act, 1935.

Commencement.

(*ii*) It shall come into force at once.

Persons entitled to be registered.

2. (*i*) In section 17 before the words " every person referred to " the words " Subject to the provisions of this Act " shall be added.

(*ii*) The following proviso shall be added as the first proviso to section 17 :

"Provided that the Local Government may, after consulting the Council of Medical Registration, permit the registration of (*a*) any person who shall furnish to the Registrar, proof that he is possessed of a medical degree, diploma, or certificate of any medical institution, approved by the Council, other than those described in the Schedule, and is such as was practising the Westeren (modern Scientific system of Allopathic) medicine, before the enforcement of the Bengal Medical Act VI of 1914; and

Punjab Act II of 1916 S. 13.

(*b*) any person who shall furnish to the Registrar, proof that he came out successfully after obtaining proper training from any Medical Institution, approved by the Council of Medical Registration, and has joined the medical profession before the enforcement of this present amendment."

(*iii*) In proviso to section 17 between the word " provided " and the words " that the Council may " the word " further " shall be added.

STATEMENT OF OBJECTS AND REASONS.

1. The Bengal Medical Act was passed in 1914. Unlike the Bombay, Burma and the Punjab Medical Acts, it did not provide for the registration of persons, who were actually practising the Medical profession in the province before the passing of the Act. In lieu of this, the Government of Bengal permitted only a number of medical men, who were properly trained and possessed of degrees, diplomas or certificates from the then non-recognised medical institutions, under the transitory provisions, published under Government of Bengal Resolution No. 1545 Medl., dated the 11th August, 1914, to appear at the final Licentiateship Examination of the State Medical Faculty of Bengal, to enable them to obtain a registrable qualification, under the Act. But even in the same, in actual practice, that concession was allowed merely for two years and most of the 'persons, practising in remote villages or serving temporarily abroad, came to know about it, either after, or just before the concession was withdrawn. Although Khan Sahib Maulvi Aman Ali moved a resolution for them in the Bengal Legislative Council; to their bad luck, the same was not carried out (*vide* Proceedings of the Bengal Legislative Council, dated the 3rd April 1919, Volume 51, page 589). As a consequence of the same, many of those, who, although, had been actually practising Medicine, Surgery and Midwifery from before 1914, could not get even an opportunity to become qualified and get themselves registered. Of these, many were and are being thrown out of employment, on account of their inability to grant certificate of illness to their patients, to prescribe proper medicine, on account of Poison Act, etc. The public are indirectly led to take them as quacks. Even, now, after practising in Allopathic system of treatment, with good name and reputation for about a quarter of a century, at the fag end of their life, if they be denied of the privilege of registration and shelter of recognition from the benign Government, they would take the denial as a great hardship on them. For these aged people the proposed proviso 2 (*ii*) (*a*) is intended.

2. There being no regulation against the establishment of private Medical institutions, neither anything which would debar them from getting Government encouragement and public sympathy towards them, poor students, not knowing their ultimate fate, are allured to get themselves admitted in those institutions. Finding insufficient rooms in the Government recognised institutions, seeing the backing and encouragement from the Government and high officials, and considering the efficiency of the staff, many students take admission in such private institutions annually. Of those students who came out successfully after 1914, many are practising with greater reputation than even their registered brethren of the profession; many are serving in tea gardens, coal mines, etc., and are highly spoken of by their superior European as well as Indian Medical Officers. Of the said institutions, some have since got recognition from the Government and still some others, which are in the way for getting the same. As a result, we find two sets of doctors from one and the same institution—(1) those who came out prior to Government recognition and are senior and more experienced but are remaining as unqualified for want of registration, while (2) those who came out after the Government recognition and are junior but all are duly qualified and registered. It should be remembered here, that both the sets have got the same training, under the same teaching staff, from the same institution. Such being the state of affairs, it is reasonable that some sort of relief should be given to the said sufferers. And for these young practitioners, the proposed proviso 2 (*ii*) (*b*) is intended.

3. The spirit of the Medical Registration Act is to protect the public from being treated by quacks. Surely, those who possess sufficient proof that they have obtained proper medical training, and are as such practising with standing reputation in the Western modern Allopathic system of Medical Science, can never be judiciously termed as quacks. A difference ought to exist between a trained, experienced and reputed medical practitioner and an out-and-out, untrained, inexperienced and ignorant quack.

No. 422L.C. — 20th January, 1936. — In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 12th December, 1935, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL LOCAL SELF-GOVERNMENT (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Bengal Local Self-Government Act of 1885.

Preamble. WHEREAS it is expedient further to amend the Bengal Local Self-Government Act, 1885, in the manner hereinafter appearing; Ben. Act III of 1885.

It is hereby enacted as follows :—

Short title. **1.** (*1*) This Act may be called the Bengal Local Self-Government (Amendment) Act, 1935.

Commencement. (*2*) It shall come into force on such date as the Local Government may, by notification, direct.

Amendment of section 19 A of Ben. Act III of 1885. **2.** In sub-section (*3*) of section 19A of the Bengal Local Self-Government Act, 1885, for the words "four years" the words "five years" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

It has always been felt that the term of three years or four years of Councils and local bodies was too short and the Government of India Act has recognised this and extended the term of Council and Assembly from three to four years. Frequent changes in the personnel of the local bodies are not conducive to the efficient administration and no fixed programme can therefore be followed. It is desirable and logical to follow the underlying principle of the Government of India Act.

THE BENGAL MUNICIPAL (AMENDMENT) BILL, 1935.

A

BILL

further to amend the Bengal Municipal Act, 1932.

WHEREAS it is expedient to amend the law relating to municipalities in Bengal;

It is hereby enacted as follows:—

Preliminary.

Short title.

1. This Act may be called the Bengal Municipal (Amendment) Act, 1935.

General disqualifications for being a commissioner.

2. In sub-section (*1*) of section 22 a new clause shall be inserted namely:—

"(*g*) has arrears of taxes of any holding in his own or in the name of his parents living in same mess with him for more than one year at the time of submitting his nomination paper."

Removal of commissioners.

3. In clause (*f*) of sub-section (*2*) of section 62 the following words "or his parents with whom he resides in joint mess be" shall be inserted after the word "he" in the first line and the word "is" is to be deleted. And the words "or his parents have" after the word "Commissioner" shall be inserted and the word "has" is to be deleted.

Preparation of assessment register.

4. (*1*) For the word "list" after the word "assessment" in the fourth line of section 136, the word "register" shall be substituted, and consequential changes in other sections such as sections 137, 138 and 147 may be made.

(*2*) In clause (*e*) of section 136 the words "and occupier" shall be deleted.

(*3*) The whole clause (*f*) of section 136 shall be deleted.

(*4*) For the words "the amount of quarterly instalment" in clause (*g*) the words "the amount of rate payable for the quarter (each rate to be shown separately)" shall be substituted.

Amendment and alteration of assessment register.

5. (*1*) For the word "list" in sub-section (*i*) of section 138 the word "register" shall be substituted.

(*2*) The words "or occupier" and "or occupation" in section 138 (*i*) (*b*) shall be deleted.

(*3*) The word "occupier" in the second and fifth lines of section 138 (*i*), (*f*) shall be deleted.

STATEMENT OF OBJECTS AND REASONS.

1. I, as the Chairman of the Dacca Municipality have experienced some practical difficulties in some sections of the Bengal Municipal Act, 1932, which are now necessary to be amended as per reasons noted below.

2. Unless this change is made, there is no bar to a person standing as a candidate though he is in arrear of taxes for several years.

3. This is intended for the commissioners who have no holding in their names, but in the names of their parents and unless this change is made, commissioners living with their parents in joint mess and having large amounts of arrear taxes may continue as commissioners with impunity.

4. *(1)* Assessment list is generally written at the time of general assessment from which the assessment register is prepared. All subsequent alterations and amendments including the partial revision of assessment are generally noted in assessment register. Hence the former is redundant and useless and the latter is quite sufficient for the purpose.

(2) Section 132 makes the owner only liable for payment of rates. Moreover, an occupier of a holding changes from one house to another every now and then, so the words "and occupier" shall be deleted.

(3) All the rates are payable in quarterly instalments. Hence the annual rate is quite redundant and useless.

(4) This is suggested to make the section clear and consistent after the omission of clause *(f)*.

5. *(1)*, *(2)* and *(3)*. They are suggested to make them consistent with the clause of section 136.

STATEMENT OF OBJECTS AND REASONS.

The Corporation activities are intimately connected with banks. It raises loans and pays them often through banks. It pays interest through banks periodically. Its provident fund is managed by banks. The amount of that fund is nearly 81 lakhs. After the withdrawal of official control, the Corporation found it difficult to float loans owing to want of co-operation of the European-owned banks. It is now finding it difficult to invest surplus cash at remunerative rates of interest or at any interest. A municipal bank will solve all these difficulties.

The bank will also advance monies to Corporation contractors against invoices and bills. It may undertake collection of rents for absentee-owners and thus facilitate realization of its own rates and taxes. There is no risk of loss of public money because rules and regulations will be made by the Local Government. It is, therefore, proposed to give the Corporation power to start a bank under proper safeguards.

Insurance of employees is now undertaken by all large employers of labour. It keeps the employees contented and give the employer a greater degree of control. No insurance business runs at a loss. In the case of the Corporation there will be no necessity for any preliminary expenditure or any expenditure on agency charges or the like. The Health Department can easily conduct the Medical Examination that may be required.

As regards fire and marine assurance and insurance against accidents there is minimum of risk because the Corporation will be insuring its own properties.

The income from insurance department is likely to be a material contribution to the municipal fund. It is, therefore, proposed to give the Corporation power to start such a department. A reserve fund is necessary because the present system of advancing large amounts from revenue is bad and financially unsound. Moreover, if unforeseen emergencies occur involving large expenditure, there is no means of meeting the same except by drawing upon the closing balance. For this a large closing balance, varying from 60 to 93 lakhs, is kept, although the statute requires only 6 lakhs. The reserve fund may very easily be built up now out of excess accumulations in the sinking fund every year. The amount of this item in each year varies from 2 to 4 lakhs. It is, therefore, proposed to start a reserve fund.

The Corporation has the option to purchase the Calcutta Tramways Company, Ltd., which is running at a profit and paying handsome dividend. Yet when the time for exercising the option came the Corporation could not exercise the option because of want of funds. The Corporation may also be empowered to purchase public utility companies, such as the Calcutta Electric Supply Corporation, Ltd., and the Oriental Gas Company, Ltd., from the monopolists for the benefit of the public.

Under the Act the Corporation can raise a loan if it satisfies the Government that there is a surplus of income over expenditure of at least 1/16th of the sum it wants to raise.

Each of the above undertakings is profitable in itself and the assets and revenues of each are sufficient security for the price that will have to be paid. At the date of acquisition the Corporation cannot take the income of the undertaking into account under the present system of taking loans. It is proposed, therefore, to give the Corporation power to issue debentures on the security of the assets and revenues of the public utility concerns.

The Calcutta Corporation runs a railway solely for disposal of refuse. Haulage of goods is also done. The area to which the Corporation railway goes is at present without any means of communication. Large quantities of fish and vegetables can be brought into Calcutta by utilizing the railway. If the Corporation drainage channel runs to Kulti, the eastern extremity of the circular canal, it will have to run a railway for the purpose of construction. If the railway is retained, there will be sufficient goods and passenger traffic. It takes one full day by boat to reach Calcutta from Kulti. The railway journey will take not more than 2 hours. It will pass through Bhangore, Kantatala, Bhojerhat—all important trading centres. So it is proposed to give the Corporation power to run railways for carriages of goods, passengers also.

The ultimate aim of a city administration should be to municipalize the public transport services. So it is proposed to give the Corporation power to run bus services. This will also help in raising price of land in quarters now without any means of transport.

The Calcutta Corporation pays 86 *per cent.* and Howrah Municipality 14 *per cent.* of the cost of the Fire Brigade. But in framing the budget its representatives are not listened to. The control should be with the authorities who pay. As the Calcutta Corporation pays the major portion, it is proposed to give them the control over the Fire Brigade.

Preamble. WHEREAS it is expedient further to amend the Bengal Cruelty to Animals Act, 1920, in the manner hereinafter appearing; Ben. Act I of 1920.

It is hereby enacted as follows:—

Short title. **1.** This Act may be called the Bengal Cruelty to Animals (Amendment) Act, 1935.

Extent and commencement. **2.** It extends to the whole of Bengal and shall come into force at once.

Amendment of section 7 of Bengal Act I of 1920. **3.** In section 7 of the Bengal Cruelty to Animals Act, 1920, the words "and usages" shall be omitted.

STATEMENT OF OBJECTS AND REASONS.

This amendment Bill has been brought to put a stop to the most barbarous and inhuman method of killing the swine, adopted by methars, doms, muchis, hadis, and some other uncivilised or half-civilised sects of human race living in our land. Perhaps many of us do not know with what kind of inhuman tortures, people of these sects kill a domestic swine, when required by them to be killed for sacrificial or any other purposes. According to the census report they are called depressed class Hindus. They worship Hindu gods. Their inheritance, marriages and funerals, etc., are to a great extent governed by recognised Hindu laws and customs. But it is curious or rather surprising that their killing the swine or eating the flesh thereof has no sanction of recognised Hindu laws or customs. As they claim to be Hindus, their method of killing the swine should also conform to Hindu laws or customs. When they kill a goat or domestic fowl, they make a *boli* of it just like people of advanced Hindu society. But when they kill a swine they forget that custom and kill it in the most barbarous and inhuman manner. They bind all the four legs of the animal and then begin to thrust pointed bamboos or spears into its body from all sides as a consequence of which the unfortunate animal begins to give out heart-rending cries in excruciating agonies and then succumbs to such agonies after a suffering for many continuous hours or sometimes for the whole day.

One may say that these people really belong to no religion. But religion or no religion, they are after all human beings and their victims are also creatures of God. These human beings should be guided by the fundamental laws of humanity, and laws of humanity demand the immediate removal of such an inhuman method. I may add here that even a buffalo—an animal far bigger than a swine—is made a *boli* or sacrificed before goddess Kali all at once in a few seconds according to the Hindu custom. A Muslim, too, sacrifices his cow—another bigger animal— in a few seconds. And in both the cases, the weapon is applied to the throat—the part of the animal-body which is best suited for the application of the weapon to put an end to life instantaneously. There is no earthly reason why those sects should not adopt a civilised method in the case of their killing a swine. The mover of this Bill characterises their method of killing the swine as most barbarous and inhuman and not warranted by the laws of human nature and appeals in the name of humanity that this inhuman custom should at once be abolished from human society, just as *Satidaha* was abolished from Hindu society as being an human custom. The mover thinks that section 7 of the Bengal Cruelty to Animals Act, as it stands in the Act, cannot be safely applied to put a stop to these sorts of inhuman cruelties by bringing the offenders to punishment ; but if this section is amended by deleting the unnecessary words" and usages " the purpose can be served. The word usage does not always carry good sense. There are inhuman or sinful usages in the world existing from time immemorial, but still these inhuman and sinful usages should be effaced from the face of the earth with a strong hand. The mover is a Muslim, but none should think that he has become a lover of the swine. The mover's sole intention is to relieve this kind of wretched animals from the prolonged and inhuman tortures to which they are subjected by some of our less advanced countrymen whose number is not so large in the country.

First Forecast of the Wheat Crop of Bengal, 1935-36.

(*Note*.—On an average of the five years ending 1933-34, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1933-34, averaged (*a*) 41·1 and (*b*) 10·4 per cent., respectively.)

Explanatory.—Four forecasts of wheat crop are published. The present forecast deals only with the estimated area sown and the general condition of the crop in the early stages.

Acreage.—According to the estimates of the District Officers the total area sown amounts to 126,900 acres this year as against 151,600 and 154,700 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—Drought in October and November affected sowings especially in West Bengal districts as well as in Malda and Dacca. The present outlook is reported to be poor in West Bengal and generally fair elsewhere.

Draft by-laws.

I.

By-laws under clause (a) of section 375 of the Bengal Municipal Act, 1932, for the regulation of conduct of business in places used for the purposes mentioned in clauses (i) (ii) and (v) of sub-section (1) of section 370.

1. The licensee shall connect all drains in the place licensed under section 370 intended for the discharge of foul water with a municipal sewer, and the licensee shall not allow any foul water or refuse matter from such place to be discharged into a river, or channel, or any other reservoir of water intended for bathing, drinking or any other domestic purpose.

2. Where there is no sewer, the licensee shall collect the waste water from a place licensed under section 370 in properly constructed cesspools. Such cesspools shall be periodically cleansed or treated by the licensee in such a way as to render them inoffensive by activated sludge process or the contents thereof shall be otherwise disposed of in such manner as may be required by the Sanitary Inspector, Health Officer, or Chairman.

3. The licensee shall arrange for sufficient supply of water for cleansing the place licensed under section 370.

4. The licensee shall not cause or suffer any skin or hide which by reason of decomposition has become useless for the purpose of leather dressing, to be kept for a longer time than may be necessary in any part of the place licensed under section 370.

5. The licensee shall, at the close of every working day, cause every floor or pavement in the place licensed under section 370 to be thoroughly swept and washed. He shall, at the same time, cause all filth or refuse deposited on the floor or pavement of such place to be collected in suitable vessels or receptacles furnished with closely fitting covers and to be forthwith removed therein from the place.

6. The licensee shall cause the supply of water in every tank or other receptacle used upon the place licensed under section 370 for the washing or soaking of any skin or hide and not being a liming pit to be renewed as often as may be necessary to prevent the emission of noxious or injurious effluvia from the contents of the tank or other receptacles.

He shall cause every such tank or other receptacle to be furnished with a suitable cover and to be kept covered unless it is required to be kept open.

He shall cause every part of the tank or other receptacle, when emptied, to be thoroughly cleansed and shall cause all filth which has been removed therefrom to be forthwith conveyed from the place licensed under section 370 in suitable vessels or receptacles furnished with closely fitting covers, for disposal in a manner approved by the Commissioners.

7. The licensee shall cause all waste lime which has been taken out of any pit upon the place licensed under section 370 to be forthwith deposited in suitable vessels or receptacles or in a properly constructed cart or carriage which, when filled or loaded, shall be covered in such a manner as to prevent the emission of noxious or injurious effluvia from the contents thereof, and shall with all reasonable despatch be removed from the said place for deposit in a place fixed by the Commissioners or disposal in a manner approved by the Commissioners.

9. The licensee shall cause all filth which has been splashed upon any part of the internal surface of any wall of any building upon the place licensed under section 370 to be removed by scraping or by some other effectual means of cleansing at least twice in every year, that is to say, at least once during each of the periods between the first and twenty-first day of March and the first and twenty-first day of September. He shall at the same time cause every part of the internal surface above the floor or pavement of the building to be thoroughly washed with hot limewash:

The licensee shall cause any part of the internal surface of the walls of any building and every floor or pavement upon the place licensed under section 370 to be kept at all times in good order and repair so as to prevent the absorption therein of any liquid filth or refuse or any noxious or injurious matter which may be splashed or may fall or be deposited thereon.

11. The licensee shall cause every part of the interior and exterior of every tub or other vessel or receptacle used upon the place licensed under section 370 to hold a solution of the material known as "puer" to be thoroughly cleansed by scrubbing or by some other effectual means once at least in every week.

In a place licensed under section 370 in which the fleshing meat is dried for subsequent sale for the manufacture of such articles as glue or jujubes, the licensee shall cover the drying area by wire netting so as to prevent carrion birds from carrying away the material and dropping it in the vicinity of inhabited areas.

2. The draft will be taken into consideration on the 1st March 1936, and any objection or suggestion received by the undersigned through the District Magistrate and the Divisional Commissioner before that date will be duly considered:—

Draft by-laws.

By-laws for the prevention of the spread of anthrax.

1. If so required by the Commissioners for the prevention of anthrax, every case of sudden death of an animal shall be reported to them for proper investigation as to the existence of anthrax within the municipal limits.

2. The carcass of an animal known or suspected to have died of anthrax shall not be skinned, but the whole carcass shall be disposed of either by burning completely or by burial in lime. In the latter case the carcass shall be buried in quicklime at a depth of at least six feet below the ground level.

3. Whenever the removal of the carcass of an animal suspected to have died of anthrax to a place of disposal is decided upon, the removal shall be conducted under the strict supervision of the Health Officer or other competent officer appointed by the Commissioners in this behalf with due regard to measures necessary to prevent the spread of infection therefrom.

4. Every stable in which an animal has died of anthrax shall be thoroughly disinfected with suitable material. For lime-wash the Commissioners may require that four ounces of chloride of lime containing 33 per cent. of available chlorine should be mixed with every gallon of water.

5. The wool, fur or hair of animals known or suspected to have contracted anthrax, if already collected, shall be destroyed at once and the place or places where such materials were kept shall be thoroughly disinfected in the manner laid down in by-law 4.

6. When required by the Commissioners to do so for the prevention of the spread of anthrax, the owners or managers of tanneries or woollen mills shall not dispose of any trade waste or refuse from such tanneries or mills which has been exposed to infection or contagion except by burning or after proper disinfection in the manner specified by the Commissioners.

For the above purpose a mixture of half a pint of commercial carbolic acid per gallon of waste water from tanneries may be used.

7. Whoever commits a breach of any of the preceding by-laws 1 to 6 shall be liable to a fine which may extend to Rs. 50.

NOTIFICATION.

No. 811L.—23rd January, 1936. — His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

THE BENGAL WHIPPING BILL, 1936.

A

BILL

to make certain offences against women punishable with whipping.

WHEREAS it is expedient to make certain offences against women punishable with whipping;

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (3) of section 80A of the Government of India Act to the passing of this Act; 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows:—

Short title and extent.

1. (1) This Act may be called the Bengal Whipping Act, 1936.

(2) It extends to the whole of Bengal.

Offences punishable with whipping in lieu of or in addition to other punishment.

2. Whoever—

(a) being a member of an assembly of two or more persons the common object of which is to commit an offence punishable under section 366 of the Indian Penal Code, abets, commits or attempts to commit such offence, or (Act XLV of 1860.)

(b) abets, commits or attempts to commit in respect of any female person any offence punishable under section 366A, 366B, 367, 372 or 373 of the said Code;

may be punished with whipping in lieu of or in addition to any other punishment to which he may for such abetment, offence or attempt be liable under the said Code.

STATEMENT OF OBJECTS AND REASONS.

There has for some time been persistent demand in the Legislative Council and elsewhere that provision should be made for the infliction of whipping as a deterrent punishment in some of the more serious offences against women as these had been increasing in number. This Bill has been prepared to provide for whipping as an additional punishment in the case of an offence under section 366, where more than one person is concerned, and of offences under sections 366A; 366B, 367, 372, 373 of the Indian Penal Code.

Resolution on the Seventy-third Annual Report of the Government Cinchona Plantations and Factory in Bengal for the year 1934-35.

GOVERNMENT OF BENGAL.

Revenue Department.

Cinchona.

CALCUTTA, THE 25TH JANUARY 1936.

RESOLUTION—No. 1130 CIN.

Read—

The Seventy-third Annual Report of the Government Cinchona Plantations and Factory in Bengal for the year 1934-35.

Read also—

The reports of the previous three years.

Mr. C. C. Calder held charge of the office of the Superintendent throughout the year.

2. The stock of crude quinine sulphate on the 31st March 1935 stood at 153,339 lbs. Of the accumulated stock of bark 200,000 lbs. was sold to the Government of Madras and 1,600 lbs. to others during the year. The closing balance of the stock of cinchona bark at the end of the year was 1,009,875 lbs. against 1,291,485 lbs. at the end of the previous year. The total quantity of cinchona products manufactured during the year was 79,566 lbs. and the total quantity sold was 50,697 lbs. Sales of manufactured products were, therefore, less than production by 28,869 lbs.

3. The total area under cinchona at the end of the year was 2,585·4 acres. Extensions amounting to 371 acres were carried out during the year including the replanting of 259 acres of old blocks coppiced off. No virgin ground is available at Munsong, and extensions at Mungpoo now provide the main avenue of development of the plantations until fresh areas are available.

4. At Mungpoo the rainfall was below the average and drought conditions prevailed towards the end of the year, necessitating special precautions against fire. A cyclonic storm at the end of the year caused considerable damage to coolie houses and forest trees, but fortunately cinchona itself did not suffer to any appreciable extent. At Munsong, the rainfall, though below normal as at Mungpoo, was well distributed throughout the year and the plantation was not affected. Considerable damage was, however, caused by a severe hail-storm towards the end of the year. The nursery disease at Munsong plantation mentioned in last year's report still awaits identification, but practical methods against it have prevented the disease from making plantings a failure.

5. The quantity of Bengal bark harvested in the year under report was 1,095,369 lbs. against 1,131,960 lbs. in the previous year.

6. Altogether 1,478,595 lbs. of dried bark were treated in the factory during the year; of this 1,375,379 lbs. were Bengal bark and the rest belonged to the Government of India.

7. The total quantity of quinine sulphate manufactured during the year was 56,561 lbs. of which 3,597 lbs. belonged to the Government of India. The cost of manufacture from the bark amounted to Rs. 2·721 per lb. The total quantity of cinchona febrifuge manufactured during the year was 23,005 lbs. of which 1,679 lbs. represented the share of the Government of India.

8. The gross receipts were Rs. 9,04,341 and, after deducting Rs. 37,985 due to the Jail Department for distribution work and Rs. 36,827 on account of sales outstanding, the net receipts amounted to Rs. 8,29,529. The total expenditure of the department including pensionary charges was Rs. 4,27,470. The receipts and expenditure were

lower by Rs. 45,524 and Rs. 5,699, respectively, than in the preceding year. The profit on the year's working according to the profit and valuation account amounted to Rs. 4,25,213 as against Rs. 4,01,722 in 1933-34. In 1934-35 sales decreased in comparison with the previous year by over Rs. 45,500, the reason being that the unusually high demand of the previous year, due to special causes, was not maintained. Net receipts (excess of actual money receipts over actual money expenditure) fell by only Rs. 39·8 thousand—a satisfactory result, in view of the fall in sales.

9. There was further accumulation of the stock of quinine sulphate to the extent of 24,576 lbs.—an increase of over 15 per cent. Stocks of bark decreased by 281,610 lbs. or about 22 per cent. owing to a smaller harvest than the previous year and the sale of 2 lakhs of pounds to the Madras Government. On the whole the value of stocks held (including quinine in the bark) rose at the end of the year by approximately 1½ lakhs of rupees as against a rise of only about Rs. 8,000 at the end of the preceding year.

In view of the continued accumulation of quinine sulphate and the shortage of cinchona febrifuge, sale of the former was opened, and of the latter closed, to the general public in January 1935.

10. Examination of the block account (Appendix E) indicates that the valuation of Mungpoo plantation is being well maintained, but there was considerable loss on revaluation of Munsong plantation both in 1933-34 and in 1934-35. This is due to the nursery disease at Munsong and to the fact that except in Mungpoo no virgin land is available for planting.

It is feared that the productive capacity of the plantations as a whole has reached its maximum and is now on the wane.

11. Government are satisfied from the report that the Bengal Cinchona Department was efficiently managed during the year under review. The thanks of Government are due to Mr. Calder, the Superintendent of Cinchona Cultivation, to Mr. S. C. Sen, the Quinologist, and to the other officers of the Department for the good work done by them.

Order—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

NOTIFICATION.

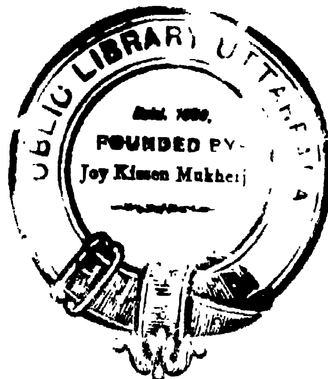
No. F.-69/36.—23rd January 1936.—His Majesty KING EDWARD VIII being present in Council was pleased to make the following declaration:—



Your Royal Highnesses, My Lords and Gentlemen, the irreparable loss which the British Commonwealth of Nations has sustained by the death of His Majesty, my beloved father, has devolved upon me the duty of sovereignty. I know how much you and all my subjects with, I hope I may say, the whole world feel for me in my sorrow and I am confident in the affectionate sympathy which will be extended to my dear mother in her overpowering grief. When my father stood here twenty-six years ago, he declared that one of the objects of his life would be to uphold constitutional Government. In this, I am determined to follow in my father's footsteps and to work, as he did throughout his life, for the happiness and welfare of all classes of my subjects. I place my reliance upon the loyalty and affection of my peoples throughout the empire and upon the wisdom of their Parliaments to support me in this heavy task and I pray God will guide me to perform it.

G. P. HOGG,

Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 1030A.—3rd February 1936.—In pursuance of Rule IX of the Bengal Provincial Services Recruitment Rules* published in notification No. 7183A., dated the 22nd May 1930, the Government of Bengal are pleased to notify the following particulars and instructions regarding the direct appointments to be made in 1936 to the Bengal Civil Service (Executive) and the Bengal Junior Civil Service.

1. **Vacancies.**—The following vacancies will be filled by direct appointments:—

Bengal Civil Service (Executive)	... 7
Bengal Junior Civil Service	... 9

In addition to these appointments, four appointments in the Upper Division of the Bengal Secretariat clerical service will be available to candidates who qualify for appointment to the abovenamed service but whose places in the list are not sufficiently high to enable them to secure appointments to the Bengal Civil Service (Executive) and the Bengal Junior Civil Service.

Government reserve the right to fill up from this examination any additional vacancies which occur up to the date of the examination or within such period thereafter as Government may think fit to prescribe.

Each candidate will be required to specify in his application the service or services for which he desires to compete, placing them in the order of his preference, and *the choice thus indicated will be final.* Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the services.

2. **Method of recruitment.**—The appointments will be made by competitive examination in the manner prescribed in Part B of Schedule II of the Bengal Provincial Services Recruitment Rules.

3. **Qualifications.**—The indispensable qualifications of a candidate are—

(*i*) that he is a native of Bengal or has a permanent domicile within the Presidency of Bengal;

(*ii*) that he is a natural born subject of His Majesty, or of an Indian State in respect of whom the Governor General in Council has made a declaration under section 96A of the Government of India Act;

(*iii*) that he shall have attained the age of 22 and shall not have attained the age of 25 on the 1st October 1935;

(*iv*) that he is a graduate of a recognised University;

(*v*) that he is of good character; and

(*vi*) that he is of sound health, good physique, active habits and free from organic defect or bodily infirmity.

Along with his application every candidate shall submit proof of his age as explained in the form of application and certificates, written not more than one year prior to the date of his application, from two responsible persons unconnected with his College or University, and not related to him, testifying to his private character and stating that he is a native of or has a permanent domicile within the Province of Bengal.

*Copies of these Rules (price annas six) are obtainable from the Officer in charge, Book Depot, Bengal Secretariat, Calcutta.

Copies attested by the nominating authorities or by responsible persons of the certificates may be submitted.

4. **Applications—Method of submission of fee, etc.**—(*i*) A person desiring to be admitted to the examination shall apply before the 16th March 1936 to the head of the college from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. A candidate who passed the examination as a non-collegiate student shall send in his application to the Registrar, Calcutta University, together with a certificate of character signed by the Principal of his college if he was connected with one, and by the Magistrate of the district in which he is resident in other cases; candidates from the Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall always be made through their Durbars by persons resident in a State in India.

(*ii*) Applications shall be made, in the form shown in Schedule I, copies of which may be obtained from the heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

(*iii*) No application will be taken into consideration by the receiving authority unless it is accompanied by non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. This payment is obligatory whether such application is subsequently rejected or not. Applications stamped with postage stamps will not be accepted.

5. **Selection Committee.**—The Government of Bengal will appoint a Selection Committee to examine the applications of nominated candidates and their eligibility for admission to the examinations. This Committee will be composed of officials and non-officials in equal numbers and will be presided over by a high officer of Government.

6. **Nomination.**—The heads of colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction, Bengal, shall forward to the Selection Committee before the 30th March 1936, the applications of candidates nominated in accordance with the allotment of nominations shown in Schedule II and shall certify the moral character of each candidate so nominated. The application of non-collegiate students nominated by the Registrar of the Calcutta University should be supported by the character certificates mentioned in paragraph 3 above. In making these nominations, due regard should be paid to the desirability of different classes and communities being represented in the public service. Care should be taken to nominate only such candidates as are likely to pass the medical examination since experience shows that a considerable number of candidates successful in the literary examination fail to pass the medical test.

7. **Selection certificates.**—In order to make the appraisement of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not

exceeding 200 in all, as it considers, qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate:

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of candidates of the minority communities and the backward classes and shall call for further nominations from the heads of colleges or Commissioners of Divisions if the number of selected Muhammadan candidates does not reach 45 per cent. of the total number selected.

8. **Particulars of candidates.**—The Selection Committee may require such further proof or particulars from the candidates as it may consider necessary, and may make enquiries regarding their character and domicile.

9. **Examination fee and time-table.**—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury in Bengal a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render a candidate's name liable to removal from the list of examinees. On complying with this requirement, the candidates will receive from the Secretary a time-table for the examination. The examination will commence on the 6th July 1936 and will be held at the Presidency College, Calcutta.

10. **Canvassing.**—Any attempt on the part of a candidate to enlist support for his application through persons of influence or officials of Government will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

11. **Ineligibility of Government servants.**—Unless specially exempted by Government by general or special order, no person holding a substantive appointment in Government service is eligible to appear at the competitive examinations. Whenever such exemption is granted, the candidate will be subject to selection by the Selection Committee, as if he were duly nominated under paragraph 6 above.

12. **Syllabus of examination and marks.**—The examinations will be held in the subjects and according to the syllabus shown in Schedule III which also indicates the numerical value to be attached to each paper at the examination.

As the possession of a knowledge of a provincial vernacular is an essential condition of appointment, candidates, whose ordinary spoken and written language is not Bengali, must take up translation from English into one of the provincial vernaculars named below:—

(*i*) Bengali, (*iii*) Urdu,
(*ii*) Hindi, (*iv*) Nepali,

and *vice versa* in the compulsory paper. Successful candidates, however, who have offered any language other than Bengali in that paper and are appointed to a service for which there is a Departmental

Examination, will be required to pass completely the Departmental Examinations in Bengali within two years of the date of their appointment to the service.

13. **Medical Examination.**—As soon as the results of the examinations have been declared, a proportion of the candidates who have qualified will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules. An order to appear before the Medical Board must not however be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be slightly in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole. The regulations governing the physical examination of candidates are set forth in Schedule IV of the Bengal Provincial Services Recruitment Rules and intending candidates are advised before they apply for admission to the examination to satisfy themselves that they are likely to qualify as physically fit under those regulations, for recent experience has shown that a considerable number of the candidates at the competitive examinations are subsequently rejected by the Medical Board as unfit.

G. P. HOGG,

Chief Secy. to the Govt. of Bengal.

Note.—The attention of the candidates is invited to the introduction of a *viva-voce* test (*vide* page 13, Schedule III).

SCHEDULE I.

N.B.—1. Copies of the form may be obtained on application to the Principals of Colleges, Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.

2. Before filling up the form the candidate should verify from the rules and the syllabus that he is eligible for admission to the examination.

3. The form should be filled up in the candidate's own handwriting and returned **by the 16th March 1936** to the Principal of the College by collegiate students, to the Registrar, Calcutta University, by non-collegiate students, to the Registrar, Dacca University, by candidates from that University, and to the Director of Public Instruction, by all other candidates.

If the Matriculation certificate does not contain sufficient particulars to show that the candidate is qualified by age to enter for the examination, a certificate from the candidate's University or College showing his date of birth as recorded on entering the University or College must also be furnished. The age of a candidate as recorded on entering his University is regarded as correct unless there is a proof to the contrary. If a candidate claims that his age is other than as so recorded, he must submit with his applications the evidence on which he bases his claim. In such a case the Selection Committee will require among other evidence a satisfactory explanation of the circumstances in which a wrong age was recorded at the time of entry into the University. They will also require a statement of any attempts made by the candidate to have the University record amended and of the results of such attempts. The statement of age must tally with the statement of age made in any previous application of this nature and will be deemed absolutely final. No revision of such a declaration will be allowed at a later period for any purpose whatever.

7. Every candidate must submit with his application non-judicial stamps of the value of Rs. 5 or a chalan showing payment into a Government treasury in Bengal of the sum of Rs. 5. Principles of calculation of mileage allowance.

"119A. (*1*) For the purpose of calculating mileage allowance under rules 116(*1*), 117(*1*), 118(*2*) and 119(*2*) a journey between two places is held to have been performed by the shortest of two or more practicable routes or by the cheapest of such routes as may be equally short: provided that when there are alternative railway routes and the difference between them in point of time and cost is not great, mileage allowance should be calculated on the route actually used.

(*2*) The shortest route is that by which the traveller can most speedily reach his destination by the ordinary modes of travelling. In case of doubt, the Commissioner of the Division may decide which shall be regarded as the shortest of two or more routes.

(*3*) If a journey is made by a route which is not the shortest but is cheaper than the shortest, such mileage allowance should be calculated on the route actually used.

(*4*) When it is necessary for carrying out the object of the journey (e.g., inspection of roads) to travel by a route which is not the direct or the cheapest route or to travel by stages the reason for such journeys should be clearly stated in the travelling allowance bill. The controlling officer may if satisfied with the reasons permit such mileage allowance to be calculated on such routes provided actual journey is performed by such routes. This concession will also be granted when the shortest route is impracticable for travelling at the time the journey is performed."

Agriculture.

CALCUTTA, THE 30TH JANUARY 1936.

RESOLUTION—No. 910AGRI.

Minister-in-charge: The Hon'ble Nawab Sir Mohiuddin Faroqui, Kt., of Ratanpur.

For some time past the Government of Bengal (Ministry of Agriculture) have had under consideration the question whether, having regard to the existing condition of the white sugar industry in Bengal, it is necessary or desirable at present to apply all or any of the provisions of the Sugarcane Act, 1934 (XV of 1934). Section 3 of the Act provides for the declaration of controlled areas, fixation of a minimum price or minimum prices for the purchase in any controlled area of sugarcane intended for use in any factory, and the licensing by the local Government of persons acting as purchasing agents for the factories. The local officers who were consulted in the matter are not unanimous in regard to the question of fixing a minimum price of sugarcane, while there is a consensus of opinion that regulation and control of local purchasing agents is desirable.

2. Before coming to a decision regarding the application of the provisions of the Sugarcane Act the Government of Bengal (Ministry of Agriculture) have decided to obtain the advice of a committee to be constituted as follows:—

Commissioner of the Presidency Division—*Chairman.*

Director of Agriculture, Bengal.

(b) to make specific recommendations for the purpose of assisting the cultivator to secure fair prices for his cane, the estimated recurring cost of schemes recommended not to exceed Rs. 10,000 per annum; and

RESOLUTION.

TARIFFS.

New Delhi, the 23rd January 1936.

No. 9-T. (7)/35.—In their Resolution No. 9-T. (2)/34, dated the 20th of October 1934, the Government of India referred for investigation by the Tariff Board the claims of the Indian woollen textile industry for protection in accordance with the principles laid down by the Indian Fiscal Commission and accepted by the Legislative Assembly. An enquiry was duly held and the Board submitted its Report on the 10th of June 1935. The Report which is published to-day for general information, has received the careful consideration of the Government of India whose decisions thereon are as follows.

2. In the general description of the industry contained in Chapter II of the Report the Board draws attention to the well-marked differentiation between the woollen

and the worsted branches of wool manufacture and in its analysis of the claim for protection, the Board has dealt with each branch separately though it realised that the two branches were not always mutually independent. With this procedure the Government of India are in full agreement and in the following paragraphs the worsted and woollen branches will be separately considered.

3. *The worsted industry.*—The claim of the worsted manufacturing industry to protection is discussed in paragraphs 65—73 of the Board's Report. In its consideration of the extent to which this branch of the woollen industry complies with the conditions prescribed by the Indian Fiscal Commission, the Board has pointed out that "one of the main factors of the first condition laid down by the Fiscal Commission, viz., the existence of an abundant supply of raw material, is not fully satisfied." India is in fact dependent for the most part on outside sources for the supply of the long fibre wool which constitutes the raw material of the industry. If it is true, as the Board says, that for so long a period as can be foreseen, worsted manufacture will be mainly dependent on foreign supplies—and there appears no reason to contest this statement—the Government of India are of opinion that the worsted branch of the industry, already handicapped by the comparative smallness of its home market, completely fails to satisfy the first and most important condition precedent to the grant of protection. The claim for protection must therefore also fail.

4. *The woollen industry.*—The Government of India notice with regret that a very important section of the woollen branch, as represented by the Cawnpore and New Egerton Woollen Mills, has not found it possible to place before the Tariff Board any evidence as to the nature and degree of the competition which it experiences from imports from abroad or as to the costs of manufacture in India. They are in accord with the Tariff Board in considering that the bare assertion of an industry cannot be accepted as evidence of the need for protection. They differ from the Board, however, in regard to its opinion that the case for protection, in general, and the estimation of the quantum of protection, in particular, can be properly determined in the absence of evidence from a section of the industry representing at least 50 per cent. of its production. Whatever may be the natural advantages of the woollen industry, the suppression of all facts relating to the comparative efficiency of its most important units precludes any findings in regard to the fulfilment of the second and third conditions of the Fiscal Commission and, equally vitiates any calculation of the degree of the protection necessary in order to equate import prices to the fair selling prices of the average efficient mill. The Government of India have, therefore, reluctantly decided that on the evidence which has been produced it cannot be held that a claim for the protection of the woollen branch of the industry has been established. They realise, however, that the defects in the case for protection are not necessarily irremediable and they propose to refer it back to the Tariff Board in order that those interests which have not yet thought fit to give evidence may have another opportunity to substantiate a case which would otherwise go by default.

5. Although they have felt compelled to reject, for the time being at least, the claim of the woollen mills the Government of India are impressed with the recommendations of the Tariff Board in regard to the handloom and small scale industry. They agree with the Board in believing that the cottage industry will derive more benefit from technical advice and assistance in marketing arrangements than by the imposition of protective duties which in themselves provide no incentive towards the improvement without which the continued survival of the small scale industry is problematical. The Government of India have therefore decided, subject to the vote of the Legislative Assembly, to make a grant of Rs. 5,00,000 spread over five years for the benefit of the cottage and small scale woollen industries. They intend that this grant should be administered in the same manner as the similar grant for the silk industry and applied for the benefit of those Provinces in which there is a substantial cottage and small scale woollen industry.

6. In regard to the woollen hosiery industry, the Government of India do not propose to take any decision pending a consideration of the further Report of the Tariff Board on the claims of the main woollen industry. The recommendations of the Board in respect of cotton hosiery and staple fibre are not germane to the main enquiry. Taking 56 2/5ths maunds as the normal yield of cane gur per acre, the gross outturn for the province is estimated at 559,600 tons this year as against 492,100 tons last year.

Other sources of gur.—The total quantity of gur likely to be obtained from date palm juice and other sources is estimated at 95,800 tons this year as against 99,800 tons last year.

No. 1032 Vety.—4th February 1936.—The following revised rules for the admission of students to the Bengal Veterinary College and of animals into the Veterinary Hospital attached to it approved by the Government of Bengal (Ministry of Agriculture), in supersession of the existing rules, are published for general information:—

REVISED RULES.

The Bengal Veterinary College.

Introduction.

The Bengal Veterinary College consisting of "The Kenneth McLeod Veterinary School" and "The Sir Dinshaw Manockjee Petit Veterinary Hospital" was established on the Belgachia Road, about 5 miles from Government House, in the year 1893 by the Government of Bengal, as a school for the instruction of students of veterinary science and as a hospital for the treatment of sick and injured animals.

In memory of his late father Babu Ram Doyal Bagla, Raja Shew Bux Bagla Bahadur made a gift of 3¼ bighas of land as a site for the school and further subscribed Rs. 30,000 towards its erection and Sir Dinshaw Manockjee Petit gave Rs. 25,000 towards the cost of the hospital.

The school was named after Dr. Kenneth McLeod, a late Professor of Surgery at the Calcutta Medical College, in recognition of his great interest in veterinary matters throughout his service. The foundation stone was laid by Sir Charles Elliot, K.C.S.I., the then Lieutenant-Governor of Bengal, on the 20th April 1892, and the institution was formally opened on the 10th of January 1894.

This school was raised to the status of a College in the year 1899 and since then has continued as a College under the management of a Committee appointed by Government consisting of Government officers and non-official gentlemen, with a Principal, Vice-Principal and staff in immediate control.

The College consists of a large building in which there are three Lecture Rooms, a Pharmacy Class Room, a Museum, a Library (which is also used as a lecturer's waiting room), and a dispensary.

There are two hostels called "The Fraser Hostel" and "The Macpherson Hostel" attached to the College which afford accommodation for boarders. There are also a Veterinary Hospital for horses, with forge and necessary out-buildings, Operation Theatre; First Hospital Surgeon's quarters, etc., and office; and a Gymnasium in the compound attached to the main College building.

In the annexe compound, which is situated on the other side of the main road opposite the College building, there are quarters for the Principal, Vice-Principal, the Hospital Surgeons, the Laboratory Assistant, Stable Overseers, Jamadars and other officers and menials; also there are an Office Building, Cattle and Dog Wards, the Raymond Research Laboratory, Post-Mortem Room, Operative Surgery Theatre, Bio-Chemistry Laboratory, Meat and Milk Inspection Clinic, Dairy Hygiene Class, and Poultry Farm, Infectious and Contagious Diseases Wards for horses, cattle and dogs, a newly built Dissection Theatre, Students' Recreation Grounds and an area of some 16 acres under "Cultivation" for the growing of fodder crops for the patients and animals of the College Hospital.

Full clinical and other facilities are afforded to meet the educational requirements of veterinary students of Bengal and other parts of India. The chief object of the College is to train men in the theory and practice of veterinary science for employment in veterinary services under Government, in Native States, in Municipalities, under District and Local Boards, or as private practitioners.

A number of stipends tenable at the College is awarded by the District Boards in Bengal. Ten stipends of the value of Rs. 12-8 each a month are also awarded by the Government of Bengal to the students who are bona fide natives of Bengal and who are not in receipt of stipends from District Boards, etc.

A regular course of training for Farriers and Dressers and of Veterinary compounders has been established in the College and the initial stages of a course in the element of Poultry Farming.

The Government of Bengal bears the entire cost of upkeep of the College and establishment. The staff consists of a Principal, a Vice-Principal, six Lecturers, three Hospital Surgeons, a Laboratory Assistant, one Assistant Lecturer, a Curator and Librarian, a Gymnasium Instructor, a Riding Master, a Manager and a considerable number of out-door workers.

PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 550L.C.—10th February, 1936.—The following report of the Select Committee on the Bengal Municipal (Amendment) Bill, 1935, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Municipal (Amendment) Bill, 1935.

[*Government Bill introduced by the Hon'ble the Minister for Local Self-Government on the 18th December, 1935.*]

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Municipal (Amendment) Bill, 1935 (as proposed by Government), was referred by a motion carried in the Bengal Legislative Council on the 18th December, 1935, have the honour to submit this our report with the Bill, embodying amendments recommended by us, annexed. All matter omitted by the Select Committee has been printed in *italics* and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English in an Extraordinary issue of the *Calcutta Gazette* of the 5th December, 1935.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The Committee met for the first time on the 23rd January, 1936, and concluded its sitting on the 27th January, 1936.

Before the proceedings commenced on the 23rd January, the Hon'ble Chairman made a reference to the death of His late Majesty King George the Fifth. The members of the Committee rose in silence as a mark of respect.

The changes made in the Bill are as follows:—

Clause 1.—The Committee have altered the figures "1935" to "1936" as the Act is to be passed in 1936.

Clause 3.—The changes made in clause 3 (*ii*) are of a purely drafting character.

Clause 4.—The word "and" has been added to proposed clause (*ii*) (*a*) of sub-section (*1*) of section 18 in order to make it clear that both clauses (*a*) and (*b*) are to be treated as conjunctive and not disjunctive.

New clause 4A.—This amendment arises out of the modification proposed by clause 44 of the Bill which seeks to insert a new section 529A dealing with appeals from decisions under existing sub-section (*1*) of section 21 of the Act.

While, by our amendment of section 21, we do not preclude the Chairman from being on the Committee, we have altered the obligatory character of the section which provides that the Chairman must be a member of the Committee.

We think this change to be desirable.

Clause 5.—The changes made in clause 5 (*2*) (*i*) are of a purely drafting character to make the intention more clear.

Clause 7.—In order to prevent conflict of jurisdiction and other anomalies we have inserted a proviso by which the Local Government will not take action under proposed section 25A if the issues have already been decided, on their merits, or are pending for decision on an election petition under section 36.

The other changes are verbal.

Clause 10.—We do not think that this provision is necessary.

Clauses 12, 13 and 15.—The modifications are purely of a drafting character.

Clause 16.—The amendment proposed by clause 16 to section 82(*3*) of the Act appears to have been misconceived. We have, accordingly, omitted it.

New clause 16A.—This provision adopts with modifications, the suggestion contained in clause 6 of Rai Bahadur Satyendra Kumar Das' Bengal Municipal (Amendment) Bill, 1934, as introduced in Council on the 14th December, 1934, which the Committee accepted.

We, however, think that this privilege should extend not only to the Municipalities of Howrah, Dacca and Chittagong but to any Municipality whose income during the preceding year is two and a half lakhs or more.

Clause 23.—We are not in favour of such a general power as was contained in this clause as introduced, but we have made necessary provision in regard to hospitals and dispensaries in new clause 38A.

Clause 24.—The omission of this clause is consequential on the omission of the Dog Tax originally proposed by clause 32 of the Bill as introduced.

Clause 25.—We think it desirable that in the case of both proposed provisos (*i*) and (*ii*) to section 126(*3*), so far as exemption from payment of the full rate is concerned, the Local Government should be satisfied that the sewerage system is of sufficient capacity and in every respect adequate for the efficient treatment and disposal of all sewerage in the area served by it. This is a mere reproduction of the provision in the existing proviso. The slight change in proposed proviso (*iii*) is to make the meaning clearer.

Clause 26.—The change is of a drafting character.

Clause 27.—This clause has been modified to include the proposal contained in clause 3 of the Bengal Municipal (Amendment) Bill, 1935, introduced by Rai Bahadur Satyendra Kumar Das on the 28th February, 1935, which the Committee accepted.

Clause 28.—The change made is purely clerical.

New clause 28A.—This clause reproduces the proposals, which were accepted by the Committee, with suitable drafting modifications, as contained in sub-clauses (*2*) and (*3*) of clause 5 of the Bengal Municipal (Amendment) Bill, 1935, introduced by Rai Bahadur Satyendra Kumar Das on the 12th December, 1935, and in clause 4(*d*) of a further amending Bill by the same member introduced on the 28th February, 1935.

Clause 30.—Sub-clause (*1*) reproduces clause 28, relating to section 145, and sub-clause (*2*) reproduces clause 30 with a formal drafting change by the omission of the words "as an assessor."

Clause 30A reproduces clause 28 relating to section 146.

New clause 31A.—This clause gives effect to the suggestion, which was accepted by the Committee, contained in clause 6 of the Bengal Municipal (Amendment) Bill, 1935, introduced by Mr. P. Banerji on the 19th August, 1935. The additional provisions as to quorum, etc., are considered to be necessary.

Clause 32.—The committee, by a majority, the Government members abstaining from voting, did not consider it a feasible proposition, having regard to the experience of Calcutta, to introduce a Dog Tax in mufassal Municipalities and have, therefore, omitted this provision.

Clause 33.—The slight change made here is of a purely drafting character.

Clause 34.—We consider that the intention of clause 34 as introduced would be better effected in the manner proposed by our redraft.

Clause 36.—We have corrected an error in the title of the Indian Factories Act.

Clause 37.—We think it desirable that the action to be taken both in proposed new sections 414A and 414B should be taken by the Commissioners *at a meeting*. The other changes are of a purely drafting character.

Clause 38A.—As pointed out in the paragraph dealing with the omission of clause 23, we think it preferable to have a self-contained section conferring on the Local Government power to make rules regulating the establishment, maintenance and management of hospitals and dispensaries and have inserted new clause 38A accordingly.

Clause 39.—The changes are mainly of a drafting character.

Clauses 40 and 41.—These clauses have been modified as a result of the omission of clause 32 which sought to impose a Dog Tax. We have, however, retained the provision enabling the Commissioners to cause dogs found wandering about, without a collar bearing a token, to be destroyed or otherwise disposed of.

Clause 42.—(*1*) We have substituted the word "inheritance" for the word "succession" as being more correct.

(*2*) We have omitted all portions relating to section 182B as consequential to the omission of clause 32.

(*3*) We have raised the penalty in regard to proposed new section 414B from Rs. 250 to Rs. 500 as we think the higher figure more appropriate.

(*4*) We have omitted all portions relating to section 464A as we do not think this necessary.

Clause 43.—The Committee, by a majority, the Government members abstaining from voting, deleted this clause as being undesirable.

Clause 44.—We have altered the drafting of this clause to bring out the intention. We have also amplified it to provide for the publication of any modifications or additions directed to be made by the District Magistrate on appeal.

Clause 46 has been omitted as being consequential on the omission of proposed section 182B in clause 32.

We recommend that the Bill, as reported on by us, be passed.

NOTE.—The signatures of Maulvi Abul Kasem and Rai Bahadur Sarat Chandra Bal had not been received up to the time of publishing the Report.

Minute of dissent by Mr. C. G. Cooper, M.L.C.

I sign the report subject to the following note of dissent:—

(1) I do not agree with the provision in clause 5 which seeks to enfranchise carters. This House deliberately came to the conclusion not to do so in 1932, and nothing has happened in the interim which should make them go back on that decision.

(2) I do not entirely agree with clauses 25 and 26, even as redrafted by the Select Committee, and reserve my right to move amendments to these clauses when they come up for consideration.

Minute of dissent by Rai Bahadur Satyendra Kumar Das, M.L.C.

Regarding the proviso (*III*) of clause 25 of the Government Bill if it is accepted the remission proposed is expected to cause substantial fall in the municipal revenue thereby rendering it impossible to meet the recurring expenses. Moreover, there is likelihood of dispute on the interpretation of the meaning of "Contribution to the sewage system."

Report of the Select Committee on the Bengal Municipal (Amendment) Bill, 1935.

(By Rai Bahadur Satyendra Kumar Das, M.L.C.)

[*As introduced in Council on the 28th February, 1935.*]

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Municipal (Amendment) Bill, 1935, was referred by a motion carried in the Bengal Legislative Council on the 12th December, 1935, have the honour to submit this our report.

2. The Bill was published in the *Calcutta Gazette* of the 4th April, 1935.

3. The Committee held their discussions on the Bill along with the Government Bill between the 23rd and 27th January, 1936.

Of the 7 clauses in the Bill, the Committee decided to incorporate in the Government Bill the substance of the provisions of clauses 3 and 4(*d*) with suitable drafting modifications. In this connection, attention is drawn to clauses 27(*2*) and 28A (*2*) of the Government Bill as reported on by the Committee.

The Committee did not consider that the changes proposed by the other clauses of the present Bill were either necessary or desirable.

In these circumstances they recommend that the Bill be withdrawn.

Minute of dissent by Rai Bahadur Satyendra Kumar Das, M.L.C.

Regarding clause 4 (*a*) the proposal should be accepted for the following considerations:—

Sub-section (*1*) of section 138 provides that the sanction of the Commissioners at a meeting is necessary for any alteration or amendment of the assessment register, including even arithmetical mistakes. This means curtailment of the power of the Chairman for no palpable advantage and will cause unnecessary delay in disposal of such cases. Moreover, after any amendment of the assessment register is sanctioned by the Commissioners at a meeting under section 138, the same should not be revised by the assessment committee which is only a sub-committee as provided in sub-section (*3*) of section 138.

1. *Regarding clause 11 the proposal should be accepted on the following ground:—*

The words "of any movable property belonging to any other person" in section 156 will have no meaning if the provisos are retained. Moreover, this will remove difficulty in realising taxes, particularly from the female owners of a rented holding whose whereabouts are unknown and whose movable property is not sufficient to cover the taxes due. This suggestion is made to make it consistent with section 156, 38 C. W. N., page 179, is also referred to in this connection.

2. Regarding clause 2 the proposal should be accepted on the following ground:—

It has been contested in the election suits in connection with the last election of the Commissioners of the Dacca Municipality that many men having academical qualifications were enlisted as voters though actually they did not live there but at the time of election voted. The substitution of the word "occupy" will remove the above difficulty to some extent and this was the proviso of the old rules also.

NOTIFICATION.

No. 136L.—11th February, 1936. — His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information.

THE CALCUTTA MUNICIPAL (AMENDMENT) BILL, 1936.

A

BILL

further to amend the Calcutta Municipal Act, 1923.

WHEREAS it is expedient further to amend the Calcutta Municipal Act, 1923, in the manner hereinafter appearing; (Ben. Act III of 1923.)

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Calcutta Municipal (Amendment) Act, 1936.

Amendment of section 20 of Bengal Act III of 1923.

2. For the proviso to clause (*aa*) of sub-section (*1*) of section 20 of the Calcutta Municipal Act, 1923, the following proviso shall be substituted, namely :—

"Provided that such payment has been made in respect of the year last preceding the year in which the election is held or any portion thereof and before the expiration of that year; or"

Special provisions for general election to be held in 1936 and all by-elections before the following general election.

3. Notwithstanding anything contained in the Calcutta Municipal Act, 1923, or the rules made thereunder, the provisions of the Calcutta Municipal (Second Amendment) Act, 1935, and of this Act shall apply to the general election to be held under the Calcutta Municipal Act, 1923, in the year 1936 and to any by-election which may be held thereafter before the following general election, and the Local Government may issue such orders as it may consider necessary to give effect to the provisions of this section. (Ben. Act II of 1936.)

STATEMENT OF OBJECTS AND REASONS.

When the Calcutta Municipal (Second Amendment) Act, 1935, was passed it was not realized that payment of taxes for motor vehicles under the Bengal Motor Vehicles Tax Act, 1932, has to be made in advance; and that in regard to such taxes paid for the whole year the payment has necessarily to be made during the previous year. This has the effect of excluding a large number of owners of motor vehicles who had paid their taxes for 1934-35 during the previous year. The amendment is intended to remedy this defect.

Opportunity has also been taken to extend the special provision of this Act to by-elections, if any, which may be held after the general election of 1936 and before the following general election in order to avoid the trouble and expense of the preparation of a fresh electoral roll.

Dacca, the 5th February 1936.

Third and Final Report on the Winter Rice Crop of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in India.)

Character of the season.—After the issue of the second forecast a further reduction in the estimates of transplanted paddy, as a result of drought, was made by some District Officers. A fair crop was reaped for the province, as a whole.

Acreage.—According to District Officers' estimates the total area under winter rice is 14,836,900 acres as compared with 14,760,000 acres last year.

Outturn.—From the summary of the district returns appended it will be seen that two districts report a normal crop, nine districts a crop varying from 75 to 92 per cent. and the rest below 75 per cent. of the normal. According to the above estimates the provincial outturn works out to 68 per cent. of the normal as against 85 per cent. last year.

Accepting 68 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 13½ maunds of clean rice per acre, is estimated at 5,003,400 tons this year as against 6,221,800 tons last year.

K. McLEAN,
Director of Agriculture, Bengal.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 712L.C.—18th February, 1936.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 14th February, 1936, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE BENGAL ALLUVION AND DILUVION (AMENDMENT) BILL, 1936.

A

BILL

further to amend the Bengal Alluvion and Diluvion Act, 1847.

WHEREAS it is expedient further to amend the Bengal Alluvion and Diluvion Act, 1847, in the manner hereinafter appearing ; IX of 1847.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Alluvion and Diluvion (Amendment) Act, 1936.

Amendment of section 6 of Act IX of 1847.

2. In section 6 of the Bengal Alluvion and Diluvion Act, 1847, after the words "paying revenue directly to Government" the words "or to any land not subject to the payment of revenue" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

Act IX of 1847 is an Act to clarify the procedure for resumption and assessment of alluvial accretions, and for the adjustment of revenue in the event of diluvion. Owing to the use of the words "estate paying revenue" in section 6 it has been held that this section cannot be applied to accretions to revenue-free estates, though such accretions are liable to resumption and assessment under Bengal Regulation II of 1819. The procedure under that Regulation is more cumbrous than under Act IX of 1847 without giving any additional advantage to the proprietors or other persons liable to assessment.

It is therefore proposed to amend section 6 so as to make the Act applicable to revenue-free estates.

No. 8453, dated Calcutta, the 21st September 1935.

Memo. by—A. D. Gordon, Esq., C.I.E., J.P., I.P., Commissioner of Police, Calcutta (offg.).

Copy of the following forwarded to the Secretary to the Government of Bengal, Local Self-Government Department. The question of the city's unfiltered water-supply is as serious from a fire-fighting point of view as the question of its filtered supply is to health. The former question might well be examined and put in order simultaneously with the latter which is at present arousing a great deal of comment and excitement.

Mr. Frederick who officiated as Chief Officer most of the year is to be congratulated on maintaining the usual very high standard of efficiency of this force.

No. F.B. 956, dated Calcutta, the 9th September 1935.

From—Captain B. A. Westbrook, O.B.E., Chief Officer, Calcutta Fire Brigade,

To—The Secretary to the Government of Bengal, Local Self-Government Department.

(Through A. D. Gordon, Esq., C.I.E., J.P., I.P., Commissioner of Police, Calcutta.)

I have the honour to submit the following report on the working of the Calcutta Fire Brigade for the year ended 31st March 1935.

During my absence on leave, until 2nd November 1934, the Brigade was under the command of the Second Officer, Mr. A. Frederick.

The work of the department throughout the year has been normal.

Financial statement.—The statement of receipts and expenditure and payments made by municipalities within the jurisdiction of the Fire Brigade and Licensed Warehouse Act (I of 1893) is given in Appendix I.

The cost of maintenance of the Fire Brigade is derived from contributions by (*a*) the Calcutta Municipality, and (*b*) the Howrah Municipality, the former contributing 86 per cent. and the latter 14 per cent.

Fees for licensed warehouse are charged under section 10 of the Licensed Warehouse and Fire Brigade Act, I of 1893, and are levied at 10 per cent. of the annual valuation of warehouses, subject to a maximum of Rs. 1,500 per warehouse per annum, and the income thus derived is credited to the Fire Brigade Fund and deducted from the amount required from the municipalities concerned.

It is satisfactory to note that the income from taxation under the above Act has considerably increased and now provides the full 50 per cent. of the cost of the upkeep of the Fire Brigade authorised by the Act.

Fires, etc.—The total number of calls to fires or supposed fires was 500, being a decrease of 34 as compared with the previous year. The actual number of fires attended was 429 which shows a decrease of 8 as compared with the previous year, and the number of fires classed as serious (i.e., over Rs. 20,000 damage per fire—see Appendix III) was 13 as compared with 18 during the previous year.

On 1st January 1935 at 7-46 p.m. a fire of considerable importance occurred on the river at Bichali Ghat where it is customary to moor a large number of country boats laden with straw. Some fourteen of the boats were involved, and, as the mooring ropes were burned through, they floated away on the stream. Luckily at this time the tide was making, otherwise the blazing boats would have drifted to the Howrah Bridge, jetties and shipping in the port and would have created a situation with which the Fire Brigade would have been powerless to cope. At no less than six points fire engines were engaged in extinguishing fires on the river bank, whilst the fire float was occupied in pursuing blazing boats and extinguishing fires on the stream. For many hours after large heaps of burning straw were found in dangerous proximity to shipping, jetties and riverside fire risks.

The facts have been reported to the Commissioners for the Port of Calcutta and it is hoped they will take the action necessary to obviate this danger.

The following statement shows the hours when the calls were received:—

It is very satisfactory to note the continued decrease in the number of wilful false alarms of fire given from fire alarm pillars in the public streets. Thirty-six calls of this nature were received during the year under review as compared with 48 and 72 during the two previous years, and an average of 85 during the past ten years.

Thanks to the much appreciated action of the Bengal Telephone Company in disconnecting subscribers who permit their instrument to be used for the purpose of giving wilful false alarms of fire to the Fire Brigade, whether knowingly or unknowingly, I am pleased to report that, for the first time, no false alarms of fire were received by this means.

The number of false alarms due to electrical defects also shows a satisfactory decrease.

The calls were classified as follows:—

Fires	429	(437)
False alarms, wilful from street fire alarms	36	(48)
False alarms, due to electrical defects ..	13	(17)
False alarms, given with good intent or accidental	9	(6)
False alarms, given from private telephone	Nil	(5)
False alarms, due to lightning ..	2	(3)
Special service (buildings collapsed, etc.)	11	(18)
Total ..	500	(534)

(*Note.*—The figures in brackets refer to the previous year.)

On 129 days 1 fire or supposed fire occurred ..	129
On 67 ,, 2 fires or supposed fire occurred	134
On 46 ,, 3 ditto ..	138
On 12 ,, 4 ditto ..	48
On 5 ,, 5 ditto ..	25
On 2 ,, 8 ditto ..	16
On 1 day 10 ditto ..	10
Total	500

The actual number of calls received during the year was 755 as compared with 774 during the previous year. These figures include instances where more than one call was received for the same fire, and are given for the purpose of classifying and comparing the means by which calls for fires, etc., are given.

These calls were transmitted to the Fire Brigade as follows:—

By private telephones, 466 (477 in 1933-34); by street fire alarms, 268 (264 in 1933-34); by messengers giving information at fire stations, 15 (35 in 1933-34); by firemen on "Look-out" duty, 6 (1 in 1933-34).

Regarding the calls for actual fires and occasions where special service was rendered in 158 cases the first information was transmitted to the Fire Brigade by means of street fire alarms, in 263 cases by private telephones, in 15 cases by messengers and in 4 cases by firemen on Look-out duty.

The proportion of the number of calls from street fire alarms increases annually which satisfactorily shows that the fire alarm system is serving a most useful purpose. Undoubtedly many serious fires have been averted owing to the rapidity by which calls for fires can be transmitted to the Fire Brigade by means of street fire alarms.

Means by which fires were extinguished.—In 268 cases fires were extinguished by first-aid machines, chemical fire extinguishers, buckets of water by firemen or by occupiers before the arrival of the Fire Brigade; in 25 cases by cutting or disconnecting electric fuses; in 35 cases by the application of sand; in 11 cases by hydrants; in 3 cases by sprinkler system; in 53 cases by one motor fire engine; in 1 case by one motor fire engine and sprinklers; in 1 case by one motor fire engine and hydrants; in 10 cases by two motor fire engines; in 1 case two motor fire engines and hydrants; in 3 cases by three motor fire engines; in 6 cases by four motor fire engines; in 1 case by four motor fire engines and fire float; in 1 case by five motor fire engines and hydrants; in 1 case by five motor fire engines, press hydrants and fire float; in 1 case by five motor fire engines and fire float; in 1 case by six motor fire engines and mill hydrants; in 1 case by six motor fire engines, hydrants and fire float; in 1 case by six motor fire engines and trailer pump; in 1 case by seven motor fire engines, trailer pump and fire float; in 1 case

by seven motor fire engines, trailer pump and hydrants; in 1 case by eight motor fire engines, hydrants and fire float; in 1 case by eight motor fire engines and fire float and in 1 case by nine motor fire engines, hydrants and fire float.

Fires in licensed premises.—Thirty fires occurred in premises licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893, as compared with 31 during the previous year.

Fire loss.—The total damage caused by fire and water during the year has been estimated at Rs. 20,54,505 as compared with Rs. 21,25,610 during the previous year.

The loss per fire is classified as follows:—

305 fires	under Rs. 100	(289)
75 „	from Rs. 100 to Rs. 1,000	(91)
22 „	„ Rs. 1,000 to Rs. 5,000	(25)
14 „	„ Rs. 5,000 to Rs. 20,000	(14)
5 „	„ Rs. 20,000 to Rs. 1,00,000	(11)
8 „	over Rs. 1,00,000	(7)
Total 429		(427)

(*Note.*—The figures in brackets refer to the previous year.)

The following summaries are given:—

Short report of fires of Rs. 20,000 and over—Appendix III.

Appliances.—The following is a list of the principal appliances now in commission by the Calcutta Fire Brigade:—

Twenty motor fire engines as follows:—

One motor pump, 600-800 gallons per minute capacity, fitted with scaling ladders, etc. (motor pump No. 2).

Five motor pumps, 500-700 gallons per minute capacity, fitted with telescopic fire escapes (55 feet), etc. (motor pumps Nos. 1, 15, 18, 19 and 20).

Two motor pumps, 450-550 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, scaling ladders, etc. (motor pumps Nos. 9 and 10).

Three motor pumps, 450 gallons per minute capacity, fitted with first-aid cylinder and trussed telescopic ladders (motor pumps Nos. 14, 11 and 8).

Three motor pumps, 400-500 gallons per minute capacity, fitted with first-aid cylinders, telescopic ladders and reels, etc. (motor pumps Nos. 5, 6 and 7).

Three motor pumps, 300 gallons per minute capacity, fitted with telescopic ladders, first-aid cylinders and reels, etc. (specially designed for use in narrow streets and congested area) (motor pumps Nos. 3, 12 and 16).

Two "G" types low-load line motor pumps, 250-300 gallons per minute capacity, fitted with 35 gallons "first-aid" cylinders and 30 feet trussed telescopic ladders (motor pumps Nos. 4 and 17).

One motor trailer pump, 250 gallons per minute capacity (specially designed for use in positions that cannot be reached by the ordinary type of motor fire engines).

One mechanically-operated 85 feet motor turn-table ladder, 3 lorries, 1 motor car, 24 hook ladders, 56 scaling ladders, 13 telescopic ladders, 15 smoke helmets and breathing apparatus, 65,500 feet of 2¾-inch unlined canvas hose, etc.

It is estimated that the motor fire appliances travelled 14,858 miles during the year to and from calls as compared with 15,916 miles in the previous year.

The total number of pumping hours at fires during the year was 2,066 hours 55 minutes as compared with 1,571 hours 15 minutes in the previous year.

Fire stations.—Appendix IV gives the number of times each fire station has been turned out in response to fire calls, together with monthly statements.

Staff.—The strength of the Brigade during the year was 272 as detailed below:—

One Chief Offcer, 1 Second Officer, 1 Chief Engineer, 5 Station Officers, 8 Engineers, 7 European firemen, 1 Warehouse Inspector, 4 clerks, 1 store-keeper, 3 telephone operators, 2 carpenters, 2 lathe mechanics, 1 fitter, 1 blacksmith, 1 tinsmith, 10 Indian drivers, 1 head tindal, 21 tindals, 178 khallasis and 13 menial employees.

The conduct and discipline of the staff throughout the year have been exemplary.

Fatalities and accidents.—Appendix VI gives short reports of fires and special occurrences involving loss of life or serious accidents.

The number of lives lost during the year under review is 11 as compared with 8 in the previous year.

Fifteen persons were injured at fires as compared with four in the previous year.

I am again glad to report that no serious accidents occurred during training recruits, or at drill.

In all cases, where necessary, first-aid was rendered by the Fire Brigade, and the injured persons conveyed to hospital by motor ambulances.

Water-supply.—Water for fire extinguishing in practically the whole of Calcutta, excepting Chitpore and Cossipore, etc., is obtained from the unfiltered water-supply system which is maintained by the Corporation of Calcutta. Pumping stations are located on the banks of the river Hooghly at Mullick Ghat and Watgunge.

I much regret to say that there is still a great deficiency of sluice valves, etc., in connection with the various mains which renders it necessary to close a large portion of the system down to effect repairs, add extensions, etc.

Such periods are fraught with the greatest anxiety and apprehension as, should a serious fire occur when the water is not available, a disaster of great magnitude must inevitably occur.

Improvised arrangements, and good fortune, have enabled the Fire Brigade, so far, to deal with fires that have occurred during these periods, but the necessity of providing adequate sluice valves, and thus obviating closing down the whole of the system is a matter of extreme urgency.

It may be observed that notes to this effect have been included in Annual Reports of this Fire Brigade for many years past.

Likewise I have again to call attention to the condition of affairs in connection with the water-supply in the Cossipore-Chitpore and adjoining area. Included in this locality are many extremely serious fire risks, comprising jute presses, warehouses, dwellings, shops, etc.

The only source of water-supply to deal with fires in this area is from ponds or tanks, many of which are replenished only by rainfall.

Thus, the only means of obtaining water at pressures suitable for fire extinguishing is by means of the Fire Brigade pumps. This necessarily means delay in getting to work, employing a large number of fire engines, together with an immense quantity of hose, etc., as tanks, etc., are often at a considerable distance from a fire. It is no very unusual occurrence to use as many as 500 to 575 feet lengths of hose in dealing with one large jute fire.

Cossipore-Chitpore area extends over some 784 acres, has a population of over 27,000 people and is a most important industrial centre, comprising some 263 jute presses and jute warehouses besides numerous other industries, together with over 5,000 occupied houses.

The land is now becoming very valuable and frequent applications are now received from jute press and warehouse owners for permission to fill up ponds and tanks on their premises in order to make space for the erection of warehouses, and, unfortunately, it is necessary to refuse the majority of such applications unless the proprietors themselves undertake to provide an alternative water-supply for fire extinguishing, such as installing sprinklers, or pumps and mains with an intake from the river. Further, owing to the difficulties encountered in dealing with fires owing to the scarcity of water it has been found necessary to refuse applications for warehouses, etc., above two stories unless special fire protection appliances are installed.

The refusal of such applications undoubtedly is detrimental to industry, which would be in a much better position if a proper water-supply was provided.

The same remarks apply to a portion of Belgachia (Ward 30) and Satpukur (Ward 31) with an area of over 13,000 acres and a population of about 40,000 people.

For many years it has been pointed out in this Annual Report that ponds and tanks, formerly available as sources of water-supply for fire extinguishing, are being filled up for sanitary reasons, or to create additional building sites. The congestion now is very apparent and the evident desire to erect additional warehouses on sites now occupied by tanks render the installation of an efficient water-supply imperative so that industry will not continue to be under the existing handicap.

The conditions obtaining at Howrah are even worse than at Chitpore-Cossipore, although the municipality has recently installed some hydrants on the filtered water-supply which can be used in case of fire. Unfortunately the hydrants are not in proximity to the jute area. The question of filling a pond or tank is as important in Howrah as in Cossipore, and the provision of a proper water-supply for fire extinguishing is a matter of vital urgency, failing which extremely serious conflagrations must inevitably occur.

At present the Fire Brigade has to rely on the river and tanks for an adequate supply of water.

Howrah occupies an area of some 6,515 acres, with a population of 204,873.

The fact that the fire float cannot approach certain portions of the Howrah river bank at low tide further complicates matters, and often the greatest difficulty has been experienced in obtaining sufficient water even to stop fires from spreading.

In both Chitpore-Cossipore and Howrah areas frequently, after large fires, the fire float has to be utilised to refill ponds with water so that water may be available for further outbreaks.

The possibility of exceedingly serious fires developing in the areas abovementioned is ever present and gives rise to the greatest apprehension.

There is a definite and increasing desire amongst the owners of jute presses and warehouses to install sprinkler systems to protect their property, but owing to no main system of water-supply being available many difficulties arise in this connection.

It is satisfactory to note, however, the increasing number of sprinkler systems already installed. In practically all of these cases the source of water-supply is from the river. The provision of a water-supply system would greatly facilitate the installation of sprinklers and be a great asset to industry generally.

Fire float.—The fire float (5,000 gallons per minute capacity) is stationed on the river opposite the Prinsep's Ghat. During the year under review it has responded to 13 calls as compared with 14 calls in the previous year.

Street fire alarms, telephones and electrical communications.—It is with very great pleasure that I record appreciation of the excellent work done by the Bengal Telephone Company by maintaining the fire alarm system, etc. The greatest assistance has always been received from all employees of that company, particularly from the telephone operators who have shown marked efficiency in transmitting all messages appertaining to fires, etc.

The gradual decrease of false alarms in the fire alarm system due to electrical defects is satisfactory. During the year under review 13 alarms of this nature were received which is the lowest on record.

Inspection Department.—The majority of theatres, cinemas and other places of public amusement, with few exceptions, have no serious fire risks. The work of inspecting these premises is carried out by a corporation official, but before licenses are granted they are inspected by a Fire Brigade Officer in regard to fire precautions and other matters relating to public safety.

There were no serious fires during the year under review in theatres, cinemas or places of public amusement.

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, 7,394 inspections of warehouses have been made during the year. Six hundred and eighty-five applications and complaints have been attended to and disposed of. One hundred and fifty-five prosecutions were made under section 14 of Act I of 1893 which resulted in 102 persons being fined, the fines aggregating in all Rs. 823. Eleven persons were warned and discharged, 2 persons acquitted, 39 cases were withdrawn and 1 case was filed owing to their being no trace of the parties concerned.

General.—The Calcutta Fire Brigade protects the city of Calcutta and the municipality of Howrah, and may attend fires outside the boundaries of the above, but not exceeding a radius of 6 miles from Fire Brigade Headquarters, provided appliances can be spared, and on payment of a prescribed fee. The total area protected is approximately 120 square miles, comprising a population of over 2,000,000 persons.

Fire Brigade Headquarters is still located in premises rented for that purpose. These premises are congested and unsuitable, but negotiations are now in progress for building an up-to-date and efficient headquarters.

Second Forecast of the Spring Oilseed Crops of Bengal, 1935-36.

(*Note.*—On an average of the five years ending 1933-34, the area under linseed in Bengal has represented some 3·5 per cent. and that under rape and mustard 11·3 per cent. of the total area under these crops in British India.)

Character of the season.—As a result of drought conditions were throughout unfavourable during the period of growth and development in West and part of North Bengal and the outturn has been reduced in consequence. Elsewhere a fair crop is expected.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is not extensive. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 850,200 acres this year as against 888,100 and 892,100 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates, the average outturn of the different oilseed crops for the province works out at 72 per cent. of the normal as against 83 and 87 per cent. reported, respectively, in the corresponding and final forecasts of last year.

Director of Agriculture, Bengal.
